TECHNOLOGIES PVT. LTD.

Industrial Electro-Mechanical & FRP Composite Solutions

CORPORATE CATALOG & BROCHURE

Providing Switchgears, Electric Motors, FRP Gratings, Cable Trays & Gearboxes

Registered Office & Works:

346 GIDC, Makarpura, Vadodara - 390010, Gujarat, India

Phone: +91 98255 07517 / 37 | WhatsApp: +91 98255 07527

Emails: sales@transpower.com | baroda@transpower.net.in | frp@transpower.net.in

About Transpower

Transpower Technologies Pvt. Ltd. is a premier engineering and distribution house established in Vadodara, Gujarat. For over five decades, we have partnered with India's leading industrial sectors to supply state-of-the-art power distribution systems, energy-efficient electric motors, high-quality gearboxes, and corrosion-resistant FRP composites.

Our core commitment lies in engineering excellence, prompt technical support, and maintaining robust inventory levels to support critical industrial applications round-the-clock.

Authorized Brand Partnerships

SIEMENS

Authorized Partner for Low Voltage Motors & Premium Switchgears

INNOMOTICS

Partnering in state-of-the-art high-efficiency electric motors

CROMPTON GREAVES (CG)

Full range of standard industrial AC and flameproof motors

HINDUSTAN ELECTRIC MOTORS (HEM)

Premium durable cast iron and flameproof motors

ROTOMOTIVE

Helical ROBUS series & Worm QUBO series gearboxes

Quality & Compliance Standards

Our supplied range conforms to rigorous quality standards:

- Quality Management Systems certified under ISO 9001:2015.
- FRP composite products certified under ASTM E84 Class 1 for flame spread.
- Marine grade composites compliant with American Bureau of Shipping (ABS) certifications.
- Switchgear solutions carrying CPRI and ERDA type-test compliance certification.

B2B Product Portfolio

1. Power Switchgears & Distribution Systems

Heavy-duty electrical protection and control equipment tailored for safe power distribution:

- Air Circuit Breakers (ACB): High current capacity breakers for main power line protection.
- Molded Case Circuit Breakers (MCCB): Dependable short-circuit & thermal overload protection.
- Miniature Circuit Breakers (MCB): High-grade din-rail mounted protection for auxiliary circuits.
- Sinova Switchgears: Siemens partnered range for reliable industrial operations.

2. Industrial Electric Motors

Highly efficient induction, flameproof, and crane duty motors:

- IE2, IE3, and IE4 Efficiency Classes: Premium energy savings and carbon footprint reduction.
- Cast Iron Housing: Heavy-duty protection conforming to IP55, IP56, and IP65.
- VFD Duty Converter Motors: Suitable for variable speed torque industrial applications.
- Trusted Brands: Authorised distributors for Siemens, Crompton Greaves, and Hindustan Motors.

3. Industrial Gearboxes (Rotomotive)

Highly robust speed reducers for conveyor, mixer, and drive applications:

- ROBUS Helical Gearboxes: Monobloc cast iron housing with capacity up to 4300Nm.
- QUBO Worm Gearboxes: Maintenance-free lightweight aluminium bodies (sizes 30-90) & cast iron bodies (sizes 110-150) pre-lubricated with synthetic oils.

FRP Composite Solutions

4. Molded FRP Gratings

High-strength, bi-directional mesh panels for industrial walkways and trench covers:

- Gritted Top: Premium quartz-grit surface for absolute slip-resistance in wet/oily areas.
- Meniscus Top: Concave shape providing premium chemical resistance and grip.
- Chequered Plate: Covered gratings preventing liquid drips and providing structural flooring.
- Key Benefits: Lightweight (1/4th of steel), chemical corrosion proof, and non-conductive.

5. FRP Cable Trays & Accessories

Heavy-duty glass-reinforced composite cable management systems:

- Ladder Type Cable Trays: High load-bearing capacity for heavy electrical cabling.
- Perforated Type Cable Trays: Continuous bottom support with ventilated slots for signal/power lines.
- Features: Corrosion-proof for marine/chemical zones, zero short-circuit risk, and UV protected.

TRANSPower

TECHNOLOGIES PVT. LTD.

Engineering Trust. Delivering Quality.

Whether you need standard energy-efficient electric motors, heavy-duty electrical switchgears, custom-engineered FRP gratings and cable trays, or robust industrial gearboxes, Transpower Technologies is your single-source reliable B2B partner.

Contact our sales engineering office today to request technical brochures, CAD drawings, price catalogs, and factory-direct quotes.
